Cumulative Major GPA: 3.67/4.00

Los Angeles, CA
May 2023

PROJECTS

COVID Vaccine Locator

- A website that provides the user with data on the live status of COVID-19 Cases in every major country.
- By implementation of a Google Maps API, the user can find the nearest location (pharmacies) that offer COVID-19 Vaccines.

Python Snake Game

- A game coded in Python-3 that allows the player to control a snake that progressively gets longer as the game progresses. (Using Tkinter)
